Personal Info

Interests:

I have unusual hobbies. My hobbies are trying to figure out if my uncle is real or if he is the real Skeleton Man. Then I figure out he isn't so I am trying to get away from him and I go through a lot of adventures.

About Me:

My parents went out Saturday evening and never returned. After three days of loneliness the cops came to my house. This weird man who said he was my uncle showed up. I ended up going with him even know I didn't want to. His house was really scary. Every night it was the same routine of noises. I have scary dreams and it feels like there real. There is this rabbit who is telling me stuff about this uncle of mine. The rabbit tells me that he is not human. And that he can show me were to go to get away from him. At the end I found out the rabbit wasn't lying. Skeleton Man had had my parents and he wanted to steal me and eat me. I solved the problem and got my parents back and everything was back to normal.

You should buy a portable lie detector because what if someone was lying to you and you didn't know it. What would you do? There hast to be a time in your life that someone is lying to you and you can tell but you don't really know if they are. So this is why you need to buy one of these. I think you can go to a police station and ask for one of these lie detector things. Or you could maybe find one at a local store.
